

We are seeking a systematic, dependable and self-starting addition to our Maintenance team as:

MILLWRIGHT/POWER ENGINEER, Maintenance
(Regular full-time; Graveyard shift)

- Do you enjoy the challenge of seeing a job through to conclusion?
- Are you detail-oriented, and thrive on following “a plan”?
- Does the hustle and bustle of a manufacturing plant call to you?

If so, we'd like to hear from you. It also helps if you like humor and good food! We're cooking up a world-class company and need your passion and talent to continue building our recipe for success.

We will require a candidate with both a Red Seal Millwright ticket and Class 4 Power Engineer ticket. Ideally, you will be familiar with the food production process, and have experience in a related role within the food industry. Exposure to working with ammonia refrigeration and Tig welding are highly sought assets.

If you not only have the career credentials we're looking for but also love to “ham it up” in a supportive and fun work environment, please e-mail your resume and cover letter to: careers@freybe.com or visit our careers page at www.freybe.com for a full job description. We appreciate your interest in joining the Freybe team and will be in contact if we are able to offer an interview.

Building on an award-winning reputation, Freybe Gourmet Foods Ltd. is a family-owned enterprise that retains its traditional roots while cultivating a dynamic team culture. We are recognized internationally as a high quality producer of sausage, ham and specialty meat products, supplying customers across North America.
